

Jerry,

I just wanted you to know that I am glad I chose to be one of the many clients funneled through the Holistic program! I very much want to be one of the winners that comes out the other end of the funnel. I am committed to a better life and you played a large roll in that. Your personal involvement and attention is greatly appreciated.

My plans are to go home to Mississippi, take care of business and return for aftercare and continue to build on the foundation you helped build.

If you ever need a nurse with a country accent give me a call!

Sincerely

  
Joe W.
